Design to impress with the IgniteXL® Bold Linear Electric Fireplace. This modern, built-in fireplace creates the illusion of incredible depth, while advanced controls maximize enjoyment and allow you to add your own personalized touch. With industry leading flexible installation options in one design; or make a bold statement and connect multiple units together for a grand, modern masterpiece.
IgniteXL® Bold
74" Linear Electric Fireplace

Customizable installation options:

Media Bed Color Themes

Mood-maker Remote
Customize the flame/media color and intensity for a fireplace that reflects your personality.

Features

- **Multi-Fire® XD Flame Effect**
  Vivid flames that are brighter and more lifelike day or night, featuring a new multi-layered color effect that creates a sense of depth. Color settings can be controlled independently or combined in one of five presets.

- **Media Accent Color/Top Light**
  Customize the fireplace interior by adjusting the media bed and top light - select from a range of preset colors or scroll through Prism mode and freeze on your favourite look.

- **Modern Media Bed**
  A stylish multi-media bed includes small and large acrylic crystals with natural-looking driftwood.

- **Bigger, Better Viewing**
  Elevate fireplace enjoyment with an impressive 16" (40.6 cm) high viewing area.

- **Comfort$aver® Heating System**
  Concealed heater with safe ceramic heat, plus 11% energy savings, warms up to 1,000 sq. ft.

- **Eco/Heat Boost**
  Eco reduces the wattage range to maintain a comfortable heat setting, while boost quickly warms a room using maximum heat output for up to 20 minutes.

- **Air Circulation Mode**
  A smart feature that moves room air to keep it fresher.

- **Ambient Light Sensor**
  Automatically adjusts firebox light to suit the room day to night.

- **Built-in Timer**
  Set timer to automatically shut off the fireplace after a preset time, up to 8 hrs.

- **Heat Management**
  Enjoy the ambiance of a fire during the warmer months by deactivating the heater via the controls or hard disconnect the heater during installation when heat is not required.

- **Smart Self-Diagnostics**
  Integrated smart technology that works behind the scenes to enhance the performance of your fireplace by providing maintenance and operation feedback.

- **Hardwire or Plug-in**
  Designed to be direct-wired to a 120 or 240 volt circuit for a seamless look (optional plug kit available).

Modular Installation

XLF-XD Series

To get a dramatically oversized fireplace that makes a lasting impression, use the linking kit and combine multiple units in a series to achieve your desired length.

IgniteXL Bold versus Modular Gas

- Showcase your bold statement of a fireplace with or without the heat – you’ll have more heat than you need
- Electric fireplaces convert 100% of input energy to heat, reducing the environmental impact and increasing energy efficiency
- No combustion, no carbon monoxide, front glass that is cool to the touch, and you can even deactivate the heater
- No venting or piping required and the unit can be placed anywhere a standard electrical outlet or connection exists

The dimensions are the same for single-sided, two-sided, or three-sided installations.

CAUTION: This fireplace is NOT load-bearing. Ensure the opening for the fireplace is framed in such a way that the weight of the building materials will not create pressure on the top of the fireplace.

NOTE: Wiring is performed at the top right back corner of the firebox. Plan the framing to allow routing the power cable to this location.

NOTE: It is recommended that the bottom of the unit be mounted between 20 in. and 40 in from the ground to maintain an optimized viewing angle of the flame.
