Your Flame, Your Way

Introducing Flex-Flame

We're thrilled to introduce our industry-first feature that will take your fireplace experience to a whole new level. Say goodbye to one standard flame effect and hello to personalized comfort!

Now, for the first time, you can truly customize the flame you want with our Flex-Flame feature. Not only can you choose your flame brightness, speed and color but now you can choose your flame design.

Choose from a range of flame effects, all with a different look to suit your style. With a simple to change component process, you can make your dream fireplace come true.

Dynamic-Fire A

Dynamic-Fire B

Multi-Fire

It's not just about staying warm; it's about creating the perfect atmosphere every time you turn on your fireplace. So go ahead, play with the flames, change up your design, and let your imagination run wild. Why settle for one kind of flame when you can have your perfect flame?

The future of fireplaces is here.
