

ELECTRONIC DIRECT SPARK IGNITION (DSI)

CF-DSI-LP
CF-DSI-NG

EASY TO CONTROL, COMMERCIAL-APPROVED

Take the work out of operation with our electronic ignition system. The Direct Spark Ignition (DSI) system is safe and easy-to-use, making it ideal for apartment complexes, hotels, restaurants, and high-end residential applications. Simply turn on the switch, dial the timer, or remotely operate the flame of your burner whenever heat and ambiance is desired in your outdoor area. Direct Spark Ignition is an optional add-on to all of our Crystal Fire® Plus gas burners and tables.

FEATURES:

- Automatic flame ignition with single control either on the fire pit or nearby surface
- System comes set up to run on 110V (highly recommended) or optional battery operation (CF-DSI-BP)
- Electronic valve and module housed inside waterproof enclosure
- Includes red Emergency Stop Button, switch bypass, and ON/OFF control panel
- Optional Bluetooth® Smart App (DSI-SA), 4-Hour Timer (4HRTC), and other accessory configurations sold separately
- Compatible with most Smart Home apps
- Order specific for liquid propane (CF-DSI-LP) or natural gas (CF-DSI-NG)
- Patent Pending
- UL and ULC Listed
